**Attachments:** Aerojet CAG Meeting Agenda March 16, 2016.docx

Hello Chris and Peter,

Chris - I would appreciate very much if you could provide

1) A list of document (draft or final) that has been sent to the agencies for review in the past 12 months. This would be whatever you got as such as an RI, RI work plan, risk assessment work plan, sampling report, groundwater monitoring reports, SVE system specs, etc.

2) A list of upcoming documents (draft and final) to the agencies for the next 6 months. Basically, all documents that you will be sending to the agencies.

Peter - It would be real helpful to get an update on the upcoming Feasibility Study on the Propellant Burn Site at MCDONNELL DOUGLAS - INACTIVE TEST SITE. I've talked to Janis Heple, Chair person for CAG, and she also thinks it'd be a good idea to get an update. Perhaps an more in depth presentation would be good for the following CAG meeting in May?

Look forward to meeting you soon, and appreciate your help on this.

Allen
